# SAFE FOR YOUR COILS AND FOR YOU

## CC-140 The Right Touch

Not all coil cleaners are created equal. Some can actually damage your coils and generate toxic fumes. The award-winning CC-140 CoilPro® from the house of Goodway works by applying a thick layer of non-fuming CoilShine® expanding foam cleaner to loosen stubborn deposits without damaging your coil.

With pressure regulation at your fingertips, you can quickly flush loosened deposits down the condensate drain without damaging the delicate fins or overwhelming the drain pan. And since dirty coils won't come to you, the CoilPro includes a built in ergonomic dolly with stair glides. For total mobility, just flip a switch and go from AC power to the on-board 12V rechargeable battery. A control valve allows you to choose from a garden hose water supply or either of the two integrated tanks.

## CC-600 Powerful and Portable

If you have ever cleaned thick and hard-to-reach coil beds, you will know that the best way to get the desired results is by using high flow. Designed to clean heavy-duty coils with utmost perfection, CC-600 High Flow CoilPro® can penetrate coil beds up to 8" thick.

Whether you're inside or outdoors, the CC-600 High Flow CoilPro is the preferred choice for heavy-duty coils; it can connect to a water line for continuous flow or draw from two internal 5 gallon tanks for remote or hard-to-reach jobs. The CC-600 applies a thick layer of cleaner through the same custom foaming nozzle featured in our award-winning CC-140 CoilPro.

For environmentally friendly, fume-free cleaning, our expanding-foam detergent, CoilShine®, is the only choice, and it's included with the High Flow CoilPro.
